

PHOTOGRAPHY COMMITTEE

NEWS

BE ON FILE AT
THE
SIERRA CLUB
OFFICE

The Sierra Club needs to know exactly what photographs you have available for possible publication. The New York City office often receives calls from publishers and industry requesting photos for various publications. If there was a file of available members' photographs, then it would be easy for the request to be filled. Two members have already used this service, thereby selling a few photographs for publication. A portion of the profits made through this service is donated to the New York City chapter.

Usually requests for photographs are specific. Therefore, it is important that you fill out the photofile information sheets that were distributed at the last two monthly meetings. Be as specific as possible for this will make things easier when calls come in. Send or deliver the sheets to Susan Saltman, c/o Sierra Club, 50 West 40th Street.

If you have not received the photofile information sheets, you can pick them up at the August monthly meeting.

"ABSTRACTS IN
NATURE"

The Photography Committee is trying to put together a possible future exhibit tentatively called "Abstracts in Nature". Please go through your photos and slides. Submit any abstract nature images that might be appropriate.

"WALK IN THE WILD"

The Photography Committee is mounting an exhibit at the National Art Museum of Sport. This is our first exhibit at this Museum and is, in fact, something of a breakthrough because it is the first photographic exhibit in the Museum which usually exhibits paintings and sculpture dealing with various aspects of sport.

Twenty members have contributed photographs and others have participated in the details of putting together an exhibit of this size. In addition to exhibiting photographs, this show will include a display of backpacking and winter sports equipment.

"Walk in the Wild" will open on September 14th and will run until October 29th. Each member attending the August 25th monthly meeting will be given five invitations to the opening night.

Any slides or photographs which were submitted for this show and not used will be returned at either the August or the September monthly meeting.

"NEW YORK CITY
SPACES AND FACES"

This slide show opens on September 15th at the Museum of Natural History. The show consists of eighty slides of various New York City scenes. Many members contributed their slides and their efforts to put this show together. It will run for a month. Plan to visit the Museum and see this show next month.

"MARSHEs AND
TIDAL WETLANDS"

This is the title of the beginning of a series of educational slide shows that the New York City chapter wants to produce. We need slides for it. More specifics on this will be given at the up coming monthly meeting.

UP-COMING
LECTURES THIS
FALL

SEPTEMBER: A guest photographer will critique your summer photographs.

OCTOBER: Camera repair and maintenance with Steve Gordon.

NOVEMBER: Sports photography by George Kalinsky of Madison Square Garden.

ATTENTION ALL
MEMBERS!!!!

Anyone who would like to receive this newsletter monthly, please submit six (6) self addressed envelopes to:

Susan Saltman
c/o Sierra Club
50 West 40th Street
New York, New York

Also, if there is any other information that you would like to share with us, please submit it to Susan for the newsletter. Such things of interest would be other photographic events that might not be widely publicized, pertinent articles, and photographic equipment wanted or for sale.
