MONTHLY MEETING

SEPTEMBER 29

This month's Photography Committee meeting will be held at the National Art Museum of Sport in Madison Square Garden.

In case you have never been there, the following directions will prove helpful...assuming that you know where Madison Square Garden is located. Come in the 7th Avenue entrance to the building. Walk toward the ticket booth area. Bear to the left and take the escalator to the mezzanine floor. The Museum will be on your left. The meeting will begin at 6:30 Wednesday evening.

BRING 5 IMAGES

This monthly meeting will be a critique of any images that you would like to bring to the meeting. Please limit your selection to five of your best. Jay Byornsen, executive director of K & L Gallery of Photographic Art, will be the resident photographic expert for the evening.

By the way, the K & L Gallery of Photographic Art is new. It will be opening to the public in October.

PEOPLE NEEDED

The Sierra Club Northeast Region has granted money to sponsor a photographic contest. We need interested members to form a committee to organize and supervise this contest. More details will be given at the Sept. 29th meeting.

"WALK IN THE WILD"

This Photography Committee show is at the National Art Museum of Sport in Madison Square Garden until October 29. The Museum is open Monday through Saturday until 6pm. Stop in to view our efforts.

BE ON FILE

The New York City Sierra Club office often receives calls requesting photos for various publications. Usually requests are specific. Therefore it is important that interested photographers have registered their photofile information sheets with the office. Send or deliver the sheets to Susan Saltman, c/o Sierra Club, 50 West 40th Street.

If you have not received the photofile sheets, you can pick them up at the Sept. 29th meeting.

A portion of the profits made through this service is donated to the NYC chapter of the Sierra Club.

"ABSTRACTS IN NATURE"

The Photography Committee is trying to put together a possible future exhibit tentatively called "Abstracts in Nature". Please go through your photos and slides. Submit any abstract nature images that might be appropriate.

"MARSHES AND TIDAL WETLANDS"

This is the title of the beginning of a series of educational slide shows that the New York City chapter wants to produce. We need slides for it. More specifics on this will be given at the monthly meetings.
